Personal Profile

Full-stack developer proficient in **Java**, **Javascript**, **Python**, **HTML/CSS**, and **SQL**, with hands-on experience building web applications and database-driven systems. Familiar with Agile workflows and collaborative development. Quick learner with a strong foundation in OOP, problem-solving, and delivering production-ready solutions.

Internship

Persistent Systems Limited

June 2023 – Aug. 2023

Martian Summer Internship

Online

- Completed an intensive training program covering **Java**, **DBMS**, **SQL**, **DSA**, and **Operating Systems**, strengthening foundational knowledge for software development.
- Acquired practical understanding of core programming concepts and problem-solving techniques applicable to real-world projects.
- Received a certificate of completion recognizing technical proficiency and readiness to apply skills in personal and professional projects.

Projects

AI-Powered Interview Assistant | *Java, React, Node.js, Javascript, HTML, and CSS*

September 2025

- Developed a full-stack web application using **React**, **Node.js**, **Javascript**, **HTML** and **CSS** to generate role-specific interview questions and conduct timed interview sessions.
- Built scalable backend services using Spring Boot with RESTful APIs for candidate management and session handling.
- Built resume parsing module with **Python**, extracting structured candidate data from uploaded files.
- Designed dynamic frontend components using Angular with state management and reactive programming.

Smart Time Table Generator | *Flutter, Dart, Firebase, Genetic Algorithm, Android Studio*

January 2024

- Built an application using **Flutter & Dart** to automatically generate optimized timetables.
- Implemented a **Genetic Algorithm** to allocate subjects, teachers, and slots efficiently while reducing clashes.
- Designed and maintained database schema using **Firebase** with structured querying for schedule data retrieval.
- Designed an intuitive, user-friendly interface with dynamic form inputs and conflict-free schedule visualization.

Technical Skills

Languages: Java, JavaScript, Python, HTML/CSS, SQL

Developer Tools: VS Code, Git, GitHub, Android Studio, Jupyter

Technologies/Frameworks: React, Django, Flutter, Node.js, Pandas, NumPy

Leadership / Extracurricular

Class Representative

2020 - 2022

- CR*
- Communicated decisions, changes, and updates from faculty back to the class.
 - Gathered and consolidated feedback from the class on curriculum and learning experience.
 - Coordinated events or initiatives for the class.

Position of Responsibility

- **Management Head, E-CELL:** Led and organized events, coordinated teams, and guided members to promote entrepreneurship.
- **Graphics Designer Head, CSESA:** Designed visuals and guided the team to ensure strong event branding.
